Forget the hype...

Sure, **Gloom** features the hottest 'you are there' 3-D graphics around - the most disturbingly realistic sound effects - the hugest army of bizarre and bloodthirsty creatures yet assembled in one game

But none of that really matters when a game is this much sheer fun to play!

This product is exempt from classification under UK Law in accordance with The Video Standards Council Code of Practice. It is considered suitable for viewing by the age category indicated.

- Stunning 3-D graphics place you 'in the game'
- Over 20 levels of non-stop shoot-em-up mayhem
- 2-Player split screen, Null Modem & Modem Play
- Fully harddrive installable on Amigas with over 2MB ram
- Full or part screen option
- Free Gloom Poster offer

"Boom! Gloom hits your sensors like a cyclone!"
"Gloriously smooth, blood thirsty, 3D pants-wetter".
Amiga User International

"Absolutely superb".
CU Amiga

"With all guns blazing Gloom hits the target every time".
Amiga Action 90%

"It's a revolting game. Not as Zombie Apocalypse 2 have graphics and sound combined so convincingly to make me feel ill".
"Spectacular. Exciting. Fast. Entirely convincing in its oppressive scariness".
"A magnificent game, anything else will have to be extra special to outdo Gloom".
